

Illustrating citations and bibliography with modified Harward style for 3GPP and IETF specs

Here I write some text and references. First I'll add a reference to RFC 3344, here [RFC3344]. Then we add some more RFCs for better illustrating references/bibliography sorting [RFC2989].

Then we need some 3GPP References to 33.401 and 33.102 here [TS33.401, TS33.102]. Some Internet Drafts [draft-harkins-emu-eap-pwd-12, draft-ietf-mboned-multiaaa-framework-10].

Here are couple of articles and a book [Giuseppe Ateniese & Breno de Medeiros 2004, Diffie & Hellman 1976].
